

Applications:

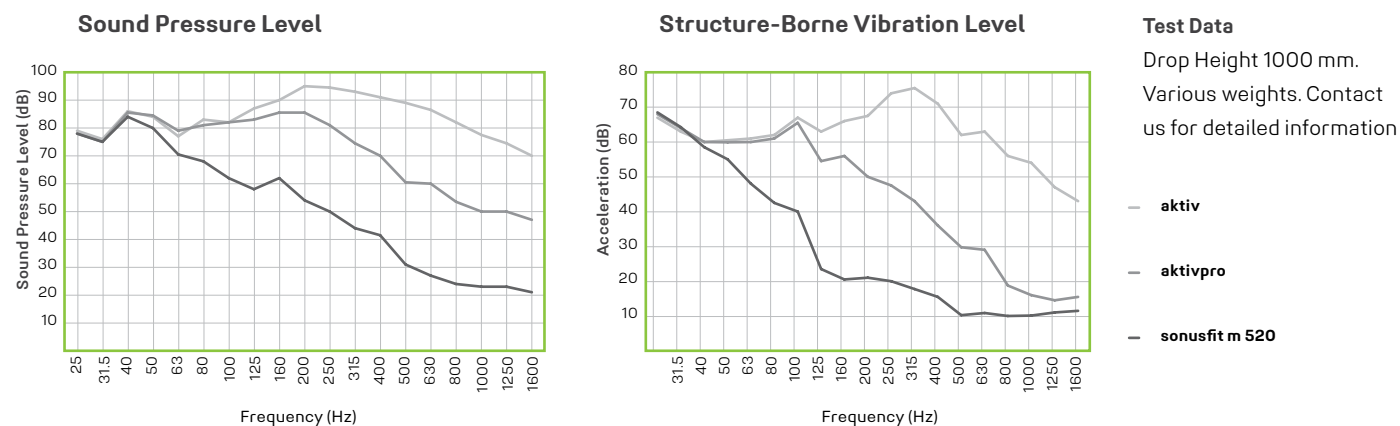

- corporate buildings
- fitness facilities
- hotels
- malls
- mixed-use buildings
- multi-family dwellings

REGUPOL sonusfit m 520 is an engineered multi-layer system specially designed to dampen low frequency vibrations from free weights and other gym equipment, protecting the structure of the building and keeping noise levels at a minimum.

Material Composition

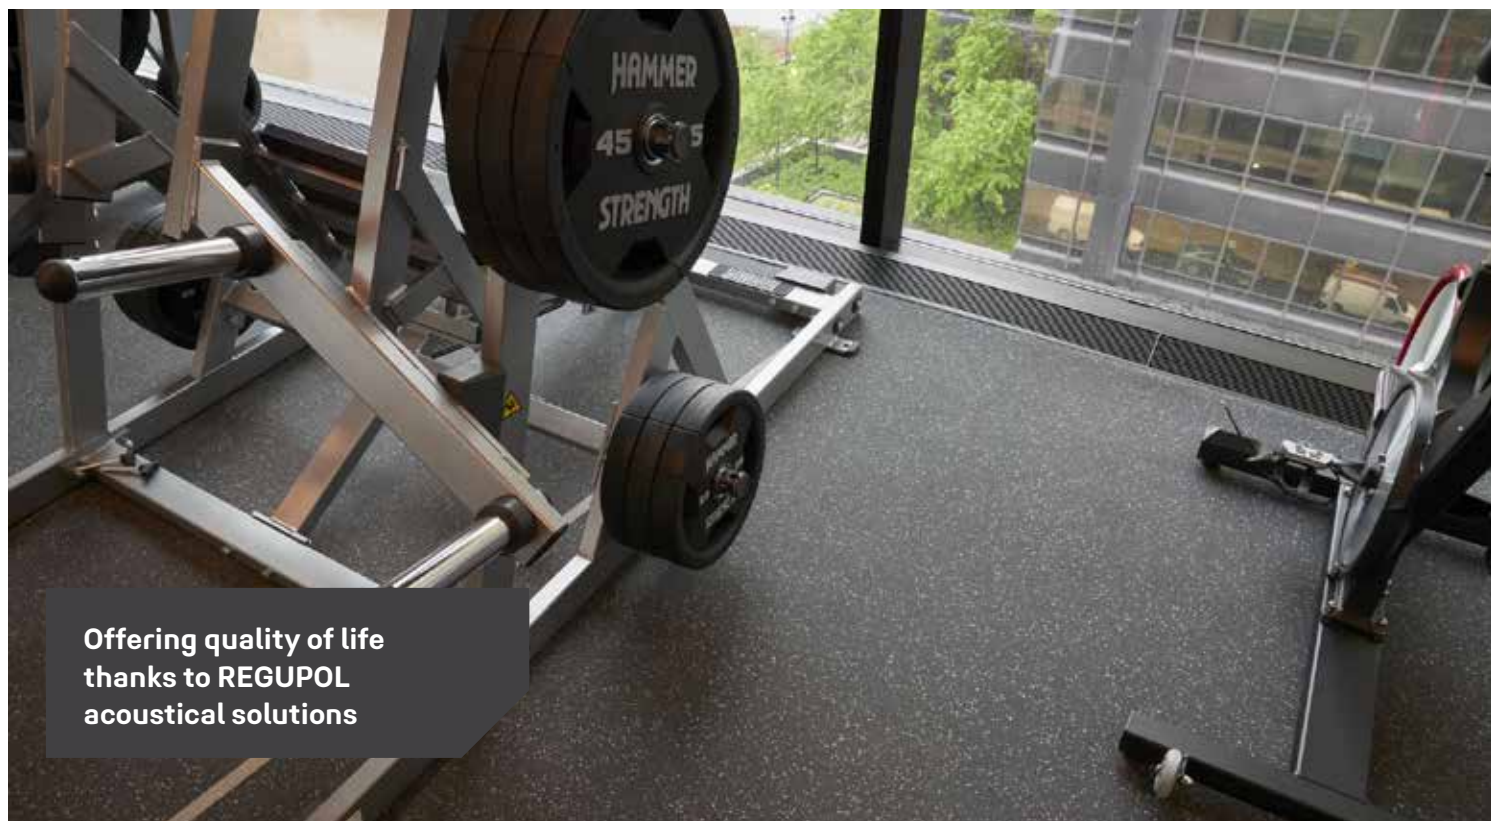

Sonusfit m 520 features our **REGUPOL aktiv** sports and fitness surface as its top layer. Elastomers with different dampening and spring properties combine to create an optimal training surface when extreme sound proofing and shock absorption are necessary.

PERFORMANCE COMPARISON: STANDARD GYM FLOORING VS. THE NEW REGUPOL SONUSFIT M 520
