

ELASTIC AND LONG-LASTING FLOORS FOR HORSES

REGUPOL stable tiles,
paddock mats and other
floor surfaces for species-
appropriate horse keeping.

Where do you stand on equestrian flooring?
On **REGUPOL!**

That's because our permanently elastic, long-lasting floorings are soft, insulating and slip resistant, providing a first-class surface for horses that guarantees a secure footing, a safe and even surface and absolute quietness under foot.

Horses that walk, stand or lie on **REGUPOL** are more relaxed and enjoy greater well-being, as injuries, inflammations and strain on tendons and feet are reduced. These surfaces are much gentler on hooves and prevent them being worn down on unshod horses.

For over 40 years, equestrian floors from **REGUPOL** have been the ideal solution for species-appropriate, cleaner and more economical horse keeping. Our floorings are suitable for use inside stables as well as for outdoor surfaces; they are weather-resistant and long-lasting. You save on bedding in horse boxes and need no footing at all in paddocks. And our **REGUPOL equestrian floors** also score highly thanks to their outstanding cleaning properties.

When it comes to equestrian floors, make sure you pick the winner - with **REGUPOL!**

We've got it covered.

THIS IS WHAT YOU CAN FIND IN THE BROCHURE

06 **REGUPOL equestrian floors in numbers**
All important facts and figures to do with equestrian floors.

08 **Applications**
Find the right floor for your boxes, paddocks and more.

38 **Colours**

Private stable, large equestrian facility or medical centre: whatever you have, we have the right flooring.

To give horses a feeling of all round well-being, we have the appropriate floor for almost all areas in horse keeping. We will also help you to find the right **REGUPOL equestrian floor** for your specific needs. Thanks to our extensive product range, we can cater specifically for your individual project. Here you can find the different applications our **REGUPOL equestrian floors** can be used for.

REGUPOL equestrian floors – elastic, low-maintenance and economical

Indoors or outdoors: our **REGUPOL equestrian floors** easily withstand the stresses and strains caused by horses and the weather. Once installed, our **REGUPOL** floorings create an elastic, slip-resistant surface in stalls, paddocks, wash bays and where else a resilient floor is needed.

Easy installation

Our **REGUPOL equestrian floors** are quite easy to lay yourself. Instructions and tips on sub-bases can be obtained from **REGUPOL**.

OUR FLOORS FOR BOXES

A secure footing:

Wherever horses need to rest and feel comfortable, the floor surface plays a significant role. For boxes, our elastic REGUPOL floors are the ideal choice. They are soft, slip-resistant and shock absorbing, provide a comfortable footing and at the same time reduce the strain on your horses' joints.

Attached horizontally to the box walls, our elastic REGUPOL products protect agitated horses that kick out from injuring themselves. We can supply water permeable but also virtually water tight flooring for your boxes: the choice is yours. All our REGUPOL floors enable you to significantly reduce bedding and improve the climate in the box. They are so easy to clean, you'll be able to spend much more time with your horses.

Tiles
Gentle on hooves and joints | long-lasting | water permeable | sound absorbing
Our products: REGUPOL equiline stable, REGUPOL equiline multi, REGUPOL equiline multi XL

Rolls
Low installation height | virtually water tight | highly resilient
Our products: REGUPOL equiline allround, REGUPOL equiline impact

OUR FLOORS FOR STABLE AISLES

Sound absorbing:

The floor in a stable aisle has to withstand the daily battering from horses' hooves and guarantee peace and quiet for the animals themselves. Our REGUPOL stable aisle floors meet these and many more demands. They are hard-wearing, slip-resistant and secure under foot – even when it's wet and damp.

The elastic material in our robust REGUPOL floor surfaces is sound absorbing and generates a pleasant acoustic atmosphere, in stark contrast to the clattering of hooves on concrete floors. This guarantees that horses in their boxes are much less likely to be disturbed.

Tiles

Gentle on hooves and joints | long-lasting | water permeable | sound absorbing

Our products: REGUPOL equiline stable, REGUPOL equiline multi, REGUPOL equiline multi XL

Moulded elastic parts

elastic | robust | easy to lay | sound absorbing

Our product: REGUPOL equiline walkway

Rolls

Low installation height | virtually water tight | highly resilient

Our products: REGUPOL equiline allround, REGUPOL equiline impact

Our tip:

REGUPOL interlocking pavers can be laid just like conventional paving stones. This reduces installation time.

OUR FLOORS FOR OPEN STALLS

Weather resistant:

Whether hot sunshine, rain or snow: **REGUPOL** equestrian floors can withstand the elements in open stalls all the year round.

Basic cleaning is also quick and easy with no complications. On our **REGUPOL** floors, horses in open stalls no longer need to wade through mud. **REGUPOL** paves the way for clean and safe walkways from Spring to Winter throughout the entire facility.

Tiles
Gentle on hooves and joints | long-lasting | water permeable | sound absorbing
Our products: **REGUPOL equiline stable**, **REGUPOL equiline multi**, **REGUPOL equiline multi XL**

Moulded elastic parts
elastic | robust | easy to lay | sound absorbing
Our product: **REGUPOL equiline walkway**

Rolls
Low installation height | virtually water tight | highly resilient
Our products: **REGUPOL equiline allround**, **REGUPOL equiline impact**

Our tip:

Simply paving the main walkways and the areas around hayracks and drinking troughs makes life easier for your animals, putting them on a clean and safe footing.

Easy to clean

Our **REGUPOL equestrian floors** are hygienic, low-maintenance and easy to clean. Dirt and other objects remain visible on the surface, where they can be cleared up and removed immediately. Our floors can easily be swept clean with a broom and, as a supplement, occasionally given a thorough cleaning with a pressure washer.

OUR FLOORS FOR PADDOCKS

Comfort:

A paddock floor is a heavy use area all the year round. Even in cold and wet weather, REGUPOL floors provide safety and comfort in your paddock. Wherever loose or natural substrate quickly reach their limits, REGUPOL creates paddock floors that can meet the needs of both horse and owner, whatever the weather.

In outdoor areas, too, our floor surfaces are safe under foot and resistant to weather. A further benefit is that you need no additional footing, which considerably eases the workload when it comes to mucking out your paddock. Unpaved and muddy paddocks are finally a thing of the past.

OUR FLOORS FOR WASH BAYS

Non-slip:

REGUPOL can supply you with the most suitable floor surfaces for your wash bay and your outdoor wash areas. Whatever product you choose, all our REGUPOL wash area floors have one thing in common: they are elastic and slip-resistant, providing good underfoot stability. Depending on the product selected, water can drain off quickly and easily.

Or you may prefer our elastic floor surface which is installed with adhesive over the entire area and allows virtually no water to seep through. These products are also a good choice for the walls in the wash bay, as they provide protection from injury for nervous horses that may kick out. A further benefit of our floor surfaces, particularly when used in wet areas, is their very good slip-resistance - to make sure that washing becomes a real pleasure.

Our products: REGUPOL equiline allround, REGUPOL equiline impact

OUR FLOORS FOR HORSE WALKERS

Stable:

When exercising horses in your horse walker, the floor is constantly subject to heavy loads. Our REGUPOL floors provide the underfoot stability that your horses need – even in the rain. Circular or oval installation poses no problems at all.

The elastic material ensures that movement remains a source of pleasure and eases the strain on hooves and joints. Any dirt or manure remain visible on the surface of our **REGUPOL** floors and can be easily cleared away. Lap after lap, our floor surfaces will keep your horses on a stable footing.

Moulded elastic parts

elastic | robust | easy to lay | sound absorbing
Our product: **REGUPOL equiline walkway**

Acoustics
Our **REGUPOL equestrian floors** are sound absorbing. Their elasticity effectively dampens the noise of hooves, eases the strain on joints and tendons and provides the horses with a surface which is non-slip and stable under foot.

OUR FLOORS FOR EQUINE CLINICS

Hygienic:

In treatment rooms, operating theatres, recovery boxes, walkways and any other rooms in equine clinics where horses are treated and cared for, our **REGUPOL** floorings provide protection for these animals. They are elastic, extremely robust and available in a range of different versions for different applications.

Thanks to their special surface, our **REGUPOL** floors score highly in terms of hygiene. At the same time, **REGUPOL** surfaces provide a solid base for the animals to stand on. For places where agitated horses may well kick out, **REGUPOL** can also supply you with suitable protective wall coverings. Getting horses back on their feet again is best done on **REGUPOL**.

Indoor systems

hygienic | robust | protective | seamless

Our product: REGUPOL equiline VET

OUR PRODUCT FOR **RIDING ARENAS**

Safe borders:

Riding arenas are surrounded by borders to keep the footing materials in place, regardless of the type used. At the same time, however, these borders form kerbs and edges that can be a source of injury to both horse and rider.

For increased safety around riding arenas, we have our **REGUPOL** riding arena edging elements. They provide that little bit of extra elasticity, in case the horse gets too close to the arena edges or the rider takes a tumble in the surrounds. If you need any help planning your riding arena, just contact us and we'll be happy to recommend professional suppliers who can provide you with the best possible support for your planning.

REGUPOL – RECOMMENDED BY NATHALIE ZU SAYN-WITTGENSTEIN

REGUPOL elastic stable mats Made in Germany can also be found in the stables of Princess Nathalie zu Sayn-Wittgenstein close to the castle in Bad Berleburg. Here, the former dressage rider and Olympic bronze medallist has been running a breeding business and training her own young horses. "With the breeding business, I've turned my hobby and passion into my profession," says Nathalie. She really appreciates the qualities of her **REGUPOL** flooring.

The trainer of the Danish national dressage team is the advertising partner for our **REGUPOL** equestrian floors.

Our advertising partner
The prominent dressage rider Nathalie zu Sayn-Wittgenstein is the face of our advertising campaign for **REGUPOL** equestrian floors.

Long service life

You can rely on the quality of our **REGUPOL equestrian floors**. Many of our floors have been in use for decades. Moisture and sunlight, heat and frost can hardly harm our material.

COLOURS

FOR REGUPOL EQUESTRIAN FLOORS

Tiles

You have a choice of three colours: besides classical red, all our **REGUPOL equestrian floors** in tile form are also available in black or green.

Moulded elastic parts

Our moulded elastic parts for safe and clean horse keeping are available in three different colours.

Rolls

The elastic **REGUPOL** rolls for equestrian floors has a natural design that enables them to blend harmoniously into the general stable and paddock environment.

Indoor systems

For our multi-layer floors with their seamless PUR wear layer, you can choose from several colours to design the floor surface you want. This surface type is characterised by its outstanding hygienic qualities and high wear resistance.

We'll be happy to send you samples of our **REGUPOL equestrian floors**. Don't hesitate to contact us: equestrian@regupol.eu | phone +49 2751 803-141

ACCESSORIES

FOR REGUPOL EQUESTRIAN FLOORS

One-component PUR adhesive sealant

For some of our **REGUPOL equestrian floors**, we recommend bonding the product to the sub-base or bonding the products together. To enable you do so, we can supply the appropriate adhesive in a practical cartridge for easy application.

Two-component PUR adhesive

Our rolls of **REGUPOL equiline allround** and **REGUPOL equiline impact** are bonded with adhesive spread over the entire area of the sub-base. The appropriate adhesive and instructions for use can of course be obtained from us.

Plug-in dowel system

Our plug-in dowels are used to connect the **REGUPOL equiline multi** tiles together. The tiles have pre-drilled holes at the sides and are fixed together by means of the plastic dowels. This system makes it easier to lay the tiles precisely, stops them from slipping out of position and prevents cupping.

By the way:

Further documentation on applying the adhesive and installing our **REGUPOL equestrian floors** is available on our website at www.regupol.de/uk/sport. Or simply contact us directly. We'll be happy to help. equestrian@regupol.eu | phone +49 2751 803-141

Whatever you need for REGUPOL equestrian floors

Contact us for any additional products you need for your **REGUPOL equestrian floors**. We can supply you with edging elements, border surrounds or ramp edges in the same elastic **REGUPOL** material all our equestrian floors are made of.

HOW DO YOU ENSURE SOLUTIONS ARE SIMPLE AND SAFE? **TOGETHER.**

REGUPOL has been in business for some 65 years and enjoys a worldwide reputation. As a customer, you want your supplier to provide you with the right solution backed by professional expertise. Creative, committed and highly motivated, our staff are here to do just that. As a result, our customers trust us – something that is attested to by our long-standing customer relationships.

Independent studies show that our staff – their expertise, professionalism and commitment – are one of the key reasons why our customers choose **REGUPOL** products. We are confident that our team can deliver the best solutions both today and tomorrow.

REGUPOL leads when it comes to quality and service
With every thought, move and handshake, we strive to make sure that **REGUPOL** is globally synonymous with great products and a wide range of different industries. Not to mention excellent results, trust and high quality. In this regard, we see ourselves as a service and quality leader.

This aspiration is encapsulated in our brand proposition: "Good from the outset." We want customers to be sure they have chosen the right solution, regardless of which product they are working with. In fact, we strive to understand our customers and their needs in order to ensure that results are good from the outset and that our customers' expectations are exceeded. We can only perform well if we truly understand what our customers need and how we can help them achieve their goals. Only by doing this can our work make them feel they have made the right decision.

Our numerous references attest to our track record. We have installed our products in the Burj Khalifa in Dubai, in the Elbphilharmonie in Hamburg and in the Olympic Stadium in Berlin

MADE IN GERMANY

phone +49 2751 803-141

HOW DO YOU BECOME MORE ENVIRONMENTALLY FRIENDLY? **TOGETHER.**

In the 1950s, polyurethane foam was new and very expensive. Instead of using all of the material produced, a considerable quantity was disposed. Our company was founded in 1954 to reprocess this wasted material into composite foam. Recycling is in our DNA.

How sustainable are REGUPOL products?

The circular economy works when recycled products compete directly with new products – we have been proving this for 65 years. **REGUPOL** products are typically made from 75% to 95% recycled materials, as are our sports mats. However **REGUFOAM** products are made from genuine raw materials.

What standards and legal requirements does REGUPOL meet?

Our company has been fully DIN EN 14001 certified since 1997 and will remain so. In addition, our products and mats comply with paragraph § 45 II No. 2 of the German draft bill on recycling management. We hope that the clearly formulated regulation will help make government action more sustainable.

What is sustainable about our human resources policy?

All our staff in Germany are paid according to a chemical industry-wide collective agreement. We are a recognised provider of insulation solutions and attach particular importance training, which is why a large number of trainees undergo their training in-house.

New Life: From the disposing to a recycling economy

REGUPOL is a founding member of the „Initiative NEW LIFE“ and commits to an optimal recycling economy, together with the other member corporations. Jointly, the members want to point out the advantages of recycling products from ELT (End-of-Life-Tires) and motivate to act sustainably. More about the initiative: www.initiative-new-life.de

REGUPOL's CO₂ balance sheet

In 2016, we partnered with the NRW Efficiency Agency to create a CO₂ location balance sheet, showing our total greenhouse gas emissions as CO₂ equivalents. We are on the right track. Find out more at www.regupol.com.

HOW DO YOU GET TO THE TOP? **TOGETHER.**

If you want to set the highest standards in construction, you will find a great partner in REGUPOL. In addition to our 65 year commitment to leadership, REGUPOL is the building material of choice for experts worldwide.

As a fourth-generation family business, **REGUPOL** currently employs 750 people at eleven locations. Our customers come from over 132 countries around the globe. For them, we recycle more than 90 000 tons of high-quality plastics every year into products that set standards.

Our brand ambassador Usain Bolt – the fastest man in the world – embodies our focus on performance through skill and will. Usain Bolt:

"I love Regupol running tracks. They are fast, they feel the same everywhere on the track and they have no joints."

Our extensive range of training courses is just as targeted. Comprising business vocations, day release and mechanical and plant engineering, the focus is very much on young people. They represent our future. We are proud of their success.

We've got it covered.
