

REGUPOL RINK SURFACES

RECYCLED RUBBER FLOORING

WHY WORK WITH THE INVENTOR

At **REGUPOL**, we know a thing or two about performance flooring, after all, we invented the technology of recycling rubber, turning old tires into rubber flooring that forever changed the sports world. That means our customers benefit from decades of experience and expertise. We work closely with our customers to explore and recommend the best flooring solution to match the practicality and flexibility of their gym design, the safety and comfort of their environment, as well as the aesthetic appeal of their facility.

REGUPOL has been a trusted provider of rubber flooring for over 65 years. From professional teams and the nation's best college sports programs to community rinks, facilities choose **REGUPOL** for our unmatched performance, durability, and service. This commitment to excellence resonates loudly worldwide and has earned us strong brand appeal among facilities of all shapes and sizes.

HIGH PERFORMANCE IN LOW PLACES

REGUPOL is an industry leader producing high-performance rink flooring that stands up to the elements and high-traffic activity. **We've got it covered** — from the compressor area, ice resurfacers room, offices, locker rooms, skate rooms, classrooms, walkways, and weight rooms.

When properly installed and cared for, **REGUPOL Aktiv** offers a long-life span. **Aktiv** provides lasting durability, increases stability, reduces body impact, and boosts plyometric power. It will also help protect your subfloor from scuffs, scratches, and cracks. It is performance tested to withstand severe punishment year after year.

PERFORMANCE MEASURED IN **DURABILITY**

Gym floors today need to withstand heavy traffic, protect against dropped weights and heavy equipment, safeguard gym goers, and most importantly, be easy to maintain. **REGUPOL AktivPro** does this and more:

- Proudly made in the USA
- Waffle bottom underside provides excellent shock and impact absorption, drainage, and cable routing
- Made from 75 to 88% post-consumer recycled content
- Modular design allows for quick and easy repairs and replacement
- Protected against dents, scratches, spills, stains, and wear-through
- Easy to install and clean-up is easy with little more than water
- Superior noise absorption
- Slip resistant, wet or dry
- Custom colors & logos
- 10 year warranty

"When redesigning the Dallas Stars weight room, I wanted the best products for our players' workouts. After doing my research and talking with other Strength & Conditioning professionals we decided on **REGUPOL AktivPro** Flooring. We needed a solution for our limited space and the inlaid platforms allowed us to utilize the entire gym floor. The durability of the product has stood up to the daily grind of the team workouts and is virtually carefree. We couldn't be happier with the quality, function, and look of the **REGUPOL AktivPro** Performance training floor."

PERFORMANCE MEASURED IN MILES

Elite athletics is a competitive business. Top athletes are pushing their training to the limits to gain the edge needed to be the best. **REGUPOL® AktivPro Roll** flooring system is a full 1" thick system with inlaid platforms — providing the durability to withstand the impact of Olympic weight lifting while offering stable footing and shock absorption for the athlete. Gone are the days of the raised platforms; **AktivPro Roll** floors are virtually seamless, allowing the athlete's training to flow from movement to movement.

"People walk in here now and they're blown away – asking how did you get bigger? Well, we didn't, we utilized the space better and we put a much better product (**AktivPro Roll**) in place."

HOW WE BUILD YOUR FLOOR

We start with your brand standards, your facility's layout, and your designer's vision.

Together, with your architect and designer, we select the best matching EPDM for your own custom color-blend that integrates with your room design.

Selecting the the best system for your athlete's movements and safety is key to the overall performance of the floor.

Your final engineered **REGUPOL** flooring solution is installed by one of our highly-qualified TEAM members, with the wear layer that has been designed specifically to match your athletic and brand standards.

Ask our experts about the optimal solution for your project:
sales@regupol.com | +1 800 537 8737

HOW WE SUPPORT YOUR BRAND IN YOUR FLOOR

We start with your gym, team, or company's logo.

Our technicians take your image (logo, symbol, saying, etc.) and electronically convert it to a graphic format that works with our water-jet cutter.

Once your image is ready, it is saved and we cut the image in-to and out-of the appropriate colors for your floor.

When your finished **REGUPOL** floor is installed, you will be as proud of the craftsmanship as you are of your brand.

Ask our experts about the optimal solution for your project:

HOW ARE SOLUTIONS EASY AND INSPIRING? **TOGETHER**

We've got it covered.

REGUPOL is more than sports and multi-purpose surfaces. More than our acoustic underlayments. And more than our state-of-the-art track and field surfaces. For over 65 years, providing solutions and delivering exceptional customer service has been our business. We understand that paying attention to the details is critical from the start of any project. Making changes later means inconvenience and additional expenses. We sweat those details so you don't have to.

Because we invented the technology to recycle tires into unique products, you benefit from decades of experience and expertise that only we can offer. That means the right information, advice, and answers when you need them, along with products that have been refined, tested, and retested over the years by our R&D team to deliver precision performance that will not disappoint. It is all accomplished with manufacturing that meets the highest quality standards with the strictest environmental requirements.

Delivering results, developing leaders worldwide

We have grown steadily since 1954 – new products developed, new subsidiaries established and new locations added. Today, **REGUPOL** is still a family enterprise, with third and fourth generations currently working in company management. We have eleven offices in seven countries, all serving as epicenters for innovation, ingenuity, and community.

Behind every **REGUPOL** product, there is a talented team that works together, across the globe, to create performance solutions from reclaimed materials that deliver durability and protection where you need it most without sacrificing sustainability. Whether used to protect surfaces and optimize load transport or to dampen sound and vibration, **REGUPOL** gets it done. We deliver with a level of product, customer service, and investment that only the inventor can offer.

No matter the customer—we aim to make their experience easy and inspiring, at an only-at-**REGUPOL** value.

Customer service excellence for over 65 years.

HOW TO ACT MORE SUSTAINABLE? TOGETHER

Caring about the environment is part of the REGUPOL core mission. When it comes to how we conduct our business and develop our products, we think long term. We ask ourselves: How will our actions today impact tomorrow's world? We strive to protect and sustain our environment every step of the way, from development and production to customer use and disposal.

On the road, tires eventually wear down or sustain irreparable damage. But, in the environment, tires can last forever. They are nonbiodegradable, unable to be compacted like plastic or metal, and maintain their shape. Because of their sheer size and impenetrable rubber compound, tires are among the most problematic sources of waste we face today.

Each year we reclaim over 9 million tires (or 90,000 tons of SBR) from landfills to make environmentally sound solutions for the sports, acoustics, commercial, construction, and transportation markets. Our products are comprised of either shredded and cleaned SBR tire rubber (100% post-consumer waste) or a combination of SBR tire rubber and vibrant EPDM (post-industrial waste) color granules. The recycled content ranges from 75% to 100% recycled materials.

We understand that sustainability is not only about material content, which is why our manufacturing facility is near our rubber supplier. By eliminating excessive fuel use created through transportation of resources, fossil fuel expenditures are minimized, and atmospheric damage reduced. We are practically a zero-waste manufacturer regrinding our scrap material for use in some of our products.

There is an increasing demand for honesty and transparency from manufacturers. We were the first Pennsylvania manufacturer to be GreenCircle Certified. They provide independent verification of our products annually to ensure the legitimacy of our recycled content claims. But our commitment to sustainability does not end there; we've gone one step further. We work with UL Environment to independently certify our Environmental Product Declaration (EPD) to better understand and communicate the sustainable qualities and the life-cycle impact of our products.

Products used in the built environment should meet specific criteria for the health and safety of all occupants. These are called Health Product Declarations (HPDs) and are the standardized way of reporting the contents of building products. It is a valuable tool for not only encouraging transparency, it creates a sense of brand trust and is safer for anyone using the property. We make HPDs readily available for our family of brands including **Aktiv**, Sonus, and Revolution.

We are active USGBC members and our products can potentially assist architects and designers in earning points under 2 out of 9 categories—Materials and Resources and Indoor Environmental Quality—of LEED certification v4.1.

HOW DO YOU GROW TO THE TOP? **TOGETHER**

When you partner with REGUPOL, you become part of a community with a shared goal of leading with excellence and innovation. Our path to success has always been rooted in product innovation and great service, with an eye on the future. We transform over 90,000 tons of high-quality rubber every year to create products that meet and exceed industry standards.

Over the course of our 65-year journey to become a leader in our category of building materials, we have built up a wealth of expertise and forged long-term customer partnerships in 132 countries worldwide—like sprint legend Usain Bolt, who made history on our blue REGUPOL running track in Berlin's Olympic Stadium in 2009 when he set two world records.

"There's nothing like running on REGUPOL. To me, REGUPOL equals gold. In more ways than one." – Usain Bolt
